delta

## **2021 PRODUCT GUIDE**

A scenic background image of a mountain lake. In the foreground, a fishing rod is visible on the right side. The water is calm, reflecting the surrounding landscape. In the background, there are steep, forested mountains under a cloudy sky. A small evergreen tree stands on a rocky outcrop in the middle ground. The overall atmosphere is peaceful and natural.

Just get outside and drop a line in the water. Drink a coffee or beer (or coconut water)...whatever...and chat to your buddy or dog while taking in the awesome landscape that surrounds you. Keep one eye on your rod tip, though, 'cause you never know when you will get a hit!

(after all, you're fishing with Gibbs Delta's stuff so it's bound to happen....)

Feel that big hit, the tug, the fight. Smile wide at your unbelievable finesse at getting that beauty right up beside you. Marvel in how perfect this natural resource is. And protect it.

At Gibbs Delta our philosophy is we all need to simply unplug and reconnect with the natural wonders that surround us.

We believe while fishing time slows down, the world falls away and you truly begin to experience and appreciate your physical environment...and whoever you're sharing it with. We communicate with each other...in-person. Even if we're not saying a word. That is a meaningful connection.

Then, by all means, plug yourself back in and share your story...we would love to experience it.

So, go ahead.....

**Unplug and reconnect.**

# Anglers **First**

We believe fishing is for everyone – from absolute beginners to seasoned pros. It's about filling your tackle box with stories and sharing those moments of wonder with your friends and family. We strive to be your trusted resource and promise to deliver on high quality, innovative products.

# Honouring **Tradition**

At 113 Years young we think we know a thing or two about tradition. We encourage sharing knowledge – where you fish, what you use, & how to use it – and storytelling. We live the culture – we celebrate authenticity and encourage new traditions too.  
We fish here.

# Lifetime **Partnerships**

We are in it for the long-haul. That takes great partnerships with employees, retailers, supply chain folks, brand ambassadors, pro staff, and you, the customer. Our collective natural resource is also a lifetime partner – we give back. We're here for life.

5

# Gibbs Gives Back

The ability to unplug from our daily activities and reconnect with the natural wonders that surround us is something we should never take for granted.

There are few outdoor activities that have the potential to connect people with such a direct and meaningful way as does fishing. Spending a day on the water with family and friends can be the beginning of memories that last a lifetime. It can be the foundation for strengthening the connection between humans and the environment.

As our society and the environment change, it is important to take steps to protect our heritage and to ensure that respect for our lands and waters, continues to be an important focus for all. It is vital that we maintain our public fisheries and protect our complex aquatic environments.

Each year Gibbs-Delta is proud to make significant donations and support initiatives that focus on;

- Rivers, Lakes and Ocean Ecosystems
- Fish Habitat, Restoration and Enhancement
- Hatchery and Net Pen Programs
- Conservation Efforts & Awareness
- Responsible Angling Ethics
- Angling Education
- Marine Awareness & Safety Programs

We are blessed to have access to the wonders of the earth and the natural resources it provides.

We are committed to maintaining and preserving our precious resources for all to enjoy for years to come. You can't just take – you have to give back.

# DOG TAIL DODGER

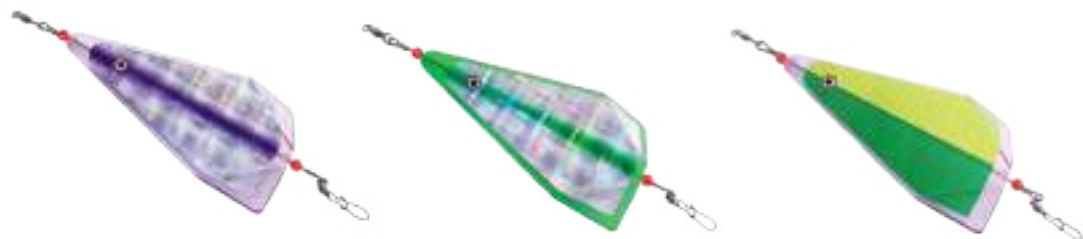

The Gibbs Dog Tail Dodger is the ideal dodger for Kokanee, Trout, and other Lakefish. These smaller dodgers feature a red eye, moonjelly tails, a ball bearing swivel, and a snap swivel.

# INLINE FLASHER

The Delta Inline Flasher is highly effective and versatile. Due to its minimal drag it can be successfully trolled at a wider range of speeds than a traditional flasher. The wide variety of colours work well to attract fish and it comes equipped with the high quality components that you can expect on all Delta products.

# ICE GATOR

The Gibbs Gator has always been a popular choice for Ice Anglers, removing the hook and using the spoon as a Flasher with a lure or bait suspended beneath it. The Ice Gator was designed with exactly this in mind. We have removed the hook and replaced it with a Snap Swivel for quick and easy change ups and with help from Industry Professionals, came up with 6 tantalizing colour combinations that feature bright, vibrant and flashy finishes.

# HIGHLINER

The Highliner Flasher does not just roll or turn, it has an erratic action that also kicks, darts and sways. It provides a lifelike action to any lure while creating vibration. All Highliner Flashers feature high quality Holographic tapes that provide amazing light reflections at all depths, Ultra Violet pigments that help attract feeding fish to your lure and 2 ball bearing swivels ensure smooth action and the ultimate in durability.

# HIGHLINER GUIDE SERIES

The blade/tape combinations of the Guide Series Highliners were developed with the help of some of the most skillful and knowledgeable local guides and anglers. Our Guide Series line up offers a wide variety of options to suit all fishing conditions you may encounter.

# PC-8

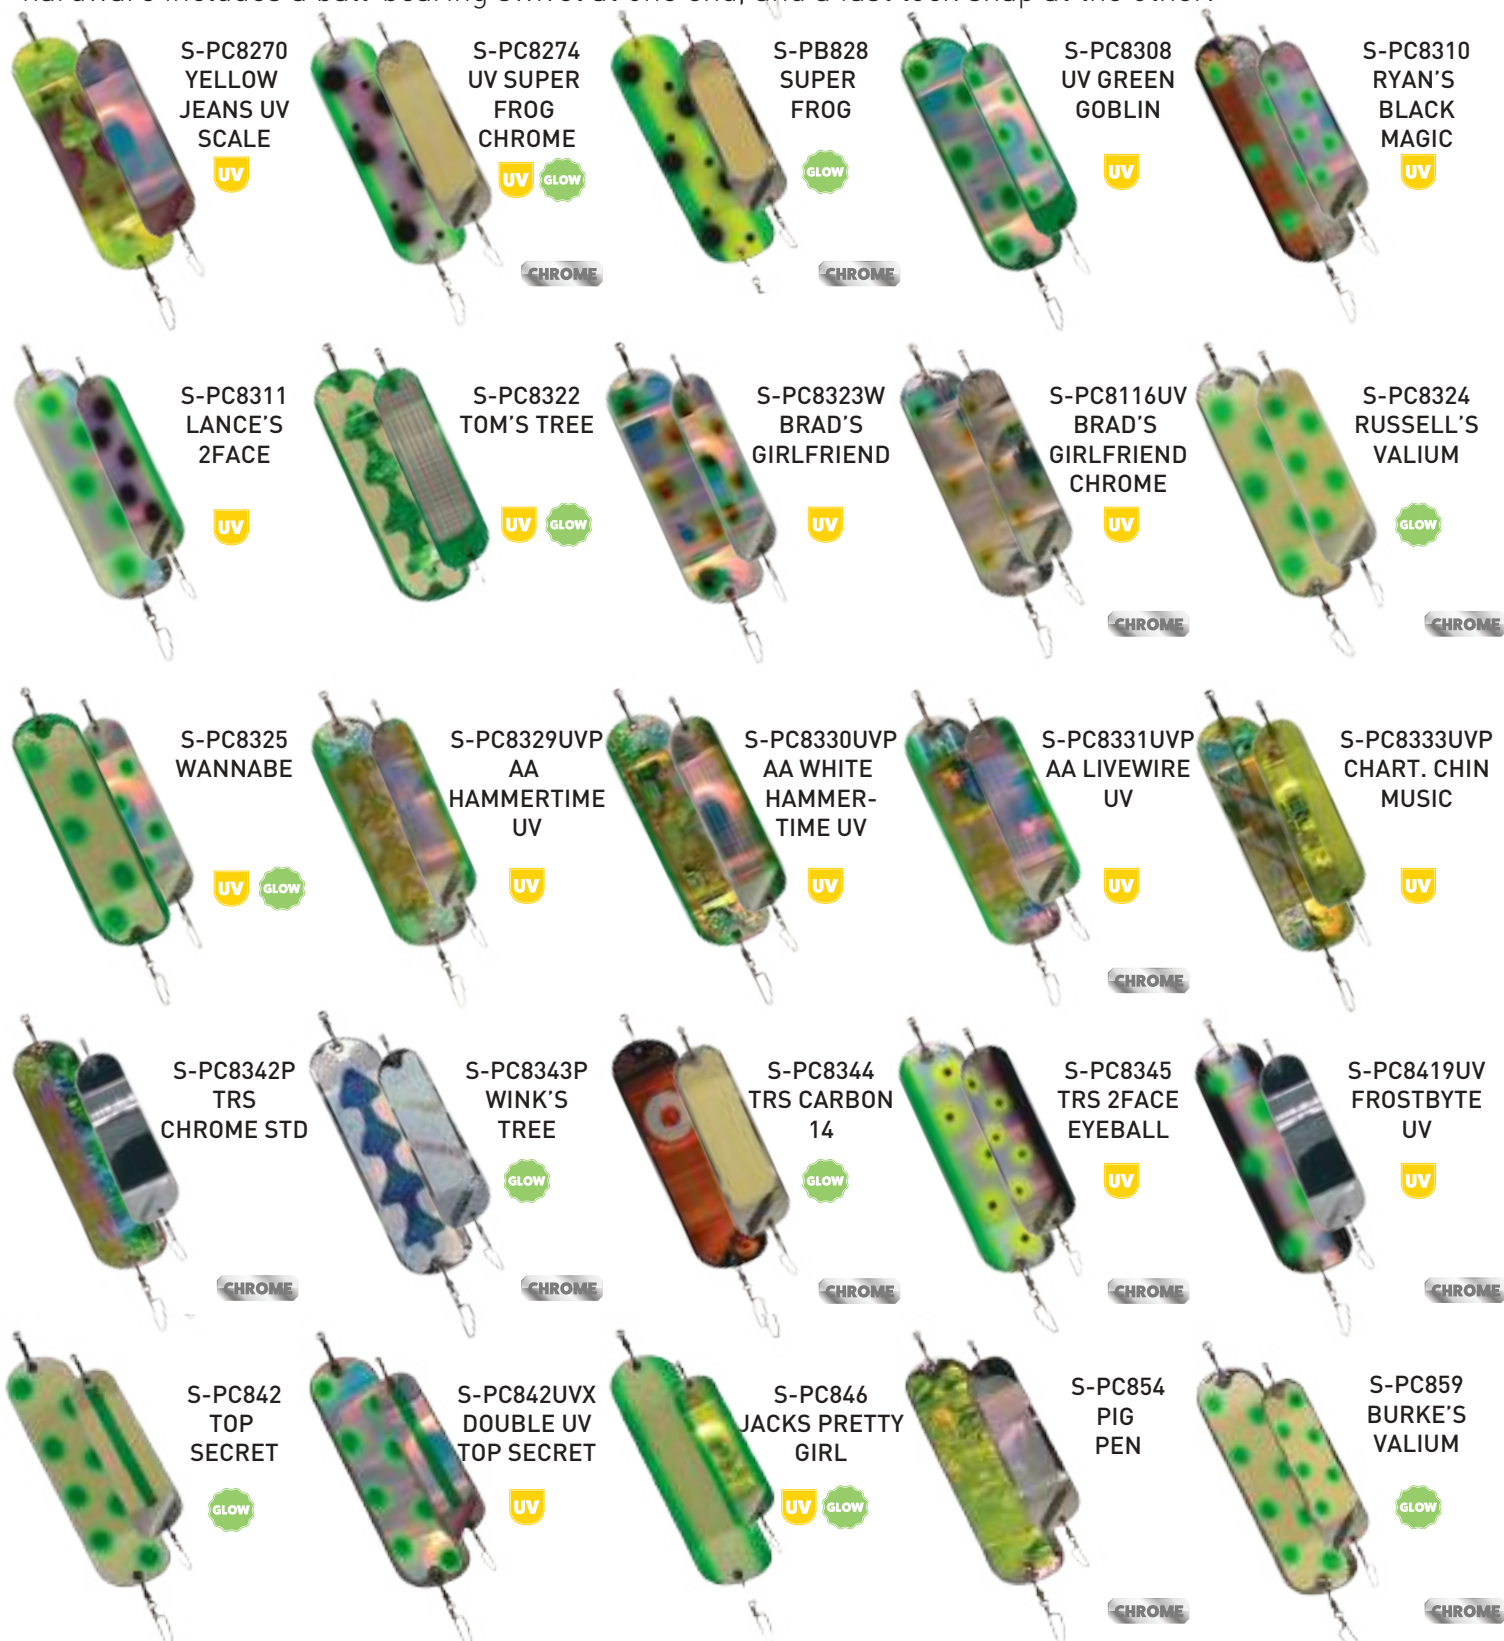

Developed by Stinger, the PC-8 Flashers come in a variety of custom colors and patterns in both tape and paint. Designed to be paired with flies, bait or hoochies 18 to 30 inches behind the flasher. These flashers are ideal for great lake fishing for browns, coho, kings, lake trout, and steelhead.

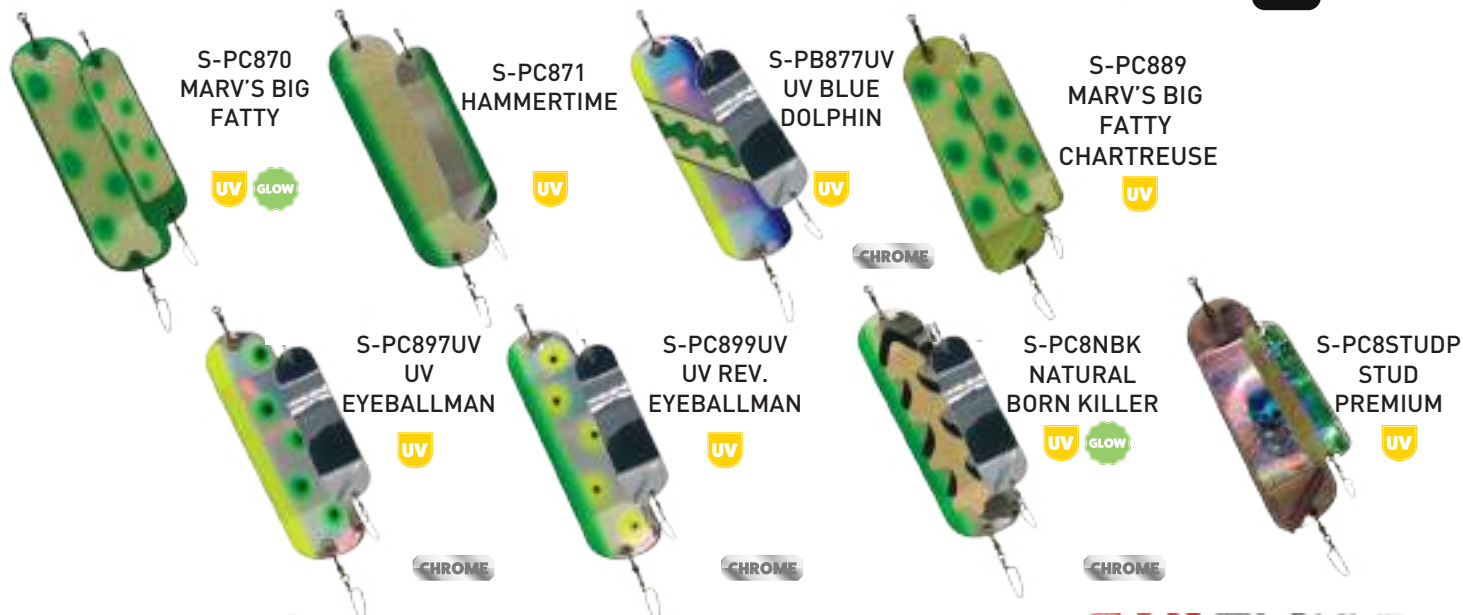

# PC-8

The PC-8 Flasher uses advanced technology to attract fish with more than just flash and vibration. Its design includes a small tube-encased microchip crystal that's activated by the wobbling action as you troll. The chip never needs charging, and will never wear out. Great colors and flashing action; premium hardware includes a ball-bearing swivel at one end, and a fast lock snap at the other.

# PC-8

# G FORCE

Gibbs G Force Spoons were specifically developed with two things in mind – imitate natural bait and catch fish. These spoons were tested, tweaked and tuned to perform a show of irresistible and erratic movements to scare up bites from even the most cautious predators. At Gibbs we take Glow seriously, what do you think the “G” in G-Force Stands for? For a potent combo of light and movement you just can’t compete with the G-Force!

# TITAN

O'ki Titan Spoons offer a strong fluttering action and are designed to be trolled at speeds higher than 2 mph. Made with a solid Brass Body and finished with a hard Nickel Finish. All Spoons come equipped with a Nickel "Clacker" on the business end for added action, noise and vibration. The heavier design of the Titan Spoon makes them a perfect candidate for Casting as well as trolling.

# SCORPION

The Scorpion Spoon is productive anywhere small baitfish are present. The Scorpion is built with high-quality materials and sports a brilliant, high-flash finish, while its curved profile creates a fluttering wobble action that triggers almost all game fish species to strike. Stinger's Scorpion Spoon is a Great Lakes standard for walleye and steelhead, but also effective for casting and vertical jigging.

Width: 1/2" Length: 2-1/4" Weight: 1/5 oz. Treble Hook Size 5

# SPOON HARNESSES

The Stinger Scorpion Spoon Harness is rigged to add both the properties of fishing with a spoon, and a crawler harness. The Spoon and crawler combo has proven to be effective for trolling for walleye at faster speeds. This harness is snelled and crimped using a 13 pound test coated wire with VMC hooks.

# COHO KILLER

The Silver Horde Coho Killer is a small metal spoon lure designed for coho and salmon fishing applications. Its unique bend and shape creates a lifelike action that mimics that of a baitfish for enticing aggressive strikes. Although designed for Salmon, this lure has quickly become a go-to for Freshwater Anglers. The Coho Killer is 3" in length and comes rigged with a single hook and realistic 3-D eye.

# GATOR

With its tantalizing wobble, the Gibbs Gator imitates the erratic swimming motion and flash of a small baitfish. Designed for fast action, the Gator is great for all game fish and ideal for either trolling or spin fishing. The many hot color patterns allow the angler to match the desired baitfish, and offer a “meal” for any larger, predatory fish. It’s time tested quality design ensures repeated fishing success. Look for the Gator in the most heavily prized tackle boxes.

# CANOE

The Gibbs Canoe Spoon is designed to offer a lifelike side to side motion when trolled or cast and retrieved at slow speeds. The slow action in partnership with the color combinations offered, drive large and lazy gamefish crazy!

## RUBY EYE WIGGLER

Fish can't resist the Gibbs Ruby Eye Wiggler with its darting and wiggling motion. Fitted with two ruby coloured beads to imitate a bug or beetle, it is a great lure for all game fish.

# ONE EYE WIGGLER

Made from extra heavy gauge metal, the Gibbs One Eye Wiggler is an excellent spoon for deep lake fishing. It is named for the large ruby colored bead inserted in the head of the spoon.

# TORONTO WOBBLER

The narrow spoon tapers to the top end with a curved bowl from one end to the other. The shape of the Gibbs Toronto Wobbler makes for a wonderful action and a highly reflective surface for lake fishing.

# ANCHOVY SPECIAL

The Rhys Davis Anchovy Special is the #1 choice for anglers who want to combine the effectiveness of anchovies and other medium sized bait fish with the action and fish catching consistency of plastic bait. The Anchovy Special creates a lifelike wounded action that can be customized with different hook placements. These teaser heads are available in a wide selection of colours and finishes including glow, UV, and chrome. The rigged Anchovy Special comes with a swivel, a treble hook, and 40lb test.

# LEFT HANDED ANCHOVY SPECIAL

Our “left hand” or “counter rotating” teaser head is designed to present your bait the same way as our standard teaser but with a reverse rotation. This allows you to have bait rolling in different directions on each side of the boat, offering a different look to attract fish.

# PIN PACKS

## RED PIN PACK

10 Red Replacement Pins for Rhys Davis Anchovy Special, Bulletroll, Large Teaser and Super Herring Bait Heads.

RD-AREDPINPK

## GLOW PIN PACK

10 Glow Replacement Pins for Rhys Davis Anchovy Special, Bulletroll, Large Teaser and Super Herring Bait Heads.

RD-AGLOPINPK

# TUNING WIRE

Tuning Wire allows you to customize and perfect the bend in your bait to achieve the perfect roll. The wire fastens to the pre-drilled holes located on the flat side of the Teaser Head and is then inserted into the bait. Available in O'ki and Rhys Davis models.

OAC-WIREPK

RD-AAWIREPK

# LURE EYES

Add Lifelike eyes to your favorite Teaser Head, Spoon or Lure for added flash and attraction.  
Available in Glow and Multi Color!

GLOW  
RD-ALEMU

MULTI  
RD-ALEGL

@JASONRTONELLI

# BIG BITE

The Rhys Davis Big Bite Strip is a perfect alternative to the real deal. Bite after bite these strips will outlast, perform and continue to impress. Designed to pair up with the Rhys Davis Large Teaser.

# 4.5" SQUID

**ZAK** TACKLE

Perfect for Fresh and Saltwater fishing, the Zak Wally Whale Squid has the action you need to take on a variety of species. Each squid is made with premium resins that keep the lure lightweight for realistic swimming action that fish just can't resist. They're even durable enough to hold their own against a heavy hitting trophy fish. Each lure is pre-rigged on 40lb line with 4/0 sticky sharp hooks, so it's ready to fish right out of the package!

# MICHAEL BAIT

YAMASHITA

Michael Baits are a small, 3" soft and lifelike squid. These come equipped with a nickel crane swivel inserted into the head to help aid in the rigging process. Used for multiple species in both fresh and saltwater applications, especially popular for Sockeye and Pink Salmon in Salt Water as well as Kokanee in Fresh. Available in 5 Packs, or rigged under our Gibbs brand with a 3/0 Mustad Hook.

# NEEDLEFISH

The Needlefish has a slimmer, much more sleek profile than the standard 4.5" squid. These Premium soft Baits are manufactured in Japan using high quality specialty vinyl. These squids feature a soft and supple unique material and offer a life like action when trolled behind a Flasher or Dodger. Available Rigged with dual Sharp 4/0 Hooks tied on 40lb Leader and Unrigged 5 Packs.

# CUTTLEFISH

The Cuttlefish has a wider profile than the standard 4.5" squid and is a closer replication to that of an actual squid. The Cuttlefish features a longer head, shorter tentacles and a soft clear "fin" on the upper portion of the body for added flutter and movement. These Premium soft Baits are manufactured in Japan using high quality specialty vinyl. These squids feature a soft and supple unique material and offer a life like action when trolled behind a Flasher or Dodger. Available Rigged with dual Sharp 4/0 Hooks tied on 40lb Leader and Unrigged 5 Packs.

# MAGNUM SQUID

The Delta 6" Magnum Squid is perfect for those situations where you want to beef up your presentation. The Magnum Squid is leaner and meaner than its 4.5" brother and can be just the ticket on days where fish are being tight lipped. This squid comes pre-rigged with dual 4/0 hooks tied up on 40 lb test line.

# MUDRAKER

The Mudraker is ideal for jigging bottom fish. Three unique features make the Mudraker an amazing fish catcher. The sleek, chrome plated, hexagonal body of the jig will sink rapidly, even in heavy tidal conditions. The harness holds the skirt and hook beside the body and off the bottom, reducing snags. The scent chamber can be used to attract species over a greater area.

# HALI HAWG

Hands down the most popular Halibut lure on the West Coast. This extra Large grub comes with multiple purposes; you can use them with Jig Heads and bounce them off the bottom of the Ocean, or you can suspend them from your Halibut spreader bar with a bit of added bait. Either way you fish these, the fish are going to find them. The Hali Hawg is made from highly durable plastic and is injected with our top secret "Bio-X" Scent.

# HALIBUT RIGS

The Gibbs Halibut Rig is available in an assortment of different hook configurations for all your bottom fishing needs. These Rigs feature heavy duty crimps, Mustad Hooks as well as 200lb stainless steel wire with a looped crimped end or 200lb perlon equipped with a line snap for quick change ups.

# BULLET JIG

Delta Bullet Jigs are the ultimate bait senders. Whether you are using artificial or genuine presentations, the unique collarless design featuring a razor sharp bait holder hook will not only hold your offering securely to the shank, you don't have a thick collar to work around which can result in split and broken bait. Spend less time baiting and more time fishing!

# CURLY TAIL

The Curly Tail is a versatile worm like plastic bait with a long, soft "J" shaped tail. Used in many different salt and freshwater applications but most commonly as an attachment to lead bullet jigs. The shape and soft nature of this plastic bait allow it to flutter and swim wildly, creating a lifelike action and subtle vibration that is tough for fish of any species to resist. Made from durable plastics and designed to hold up hit after hit.

# UV + DIAMOND DAZZLER WILLOW LEAF TROLL

The proven Gibbs Willow Leaf Troll is the most popular gang troll available for lake trolling and is now available with a UV Rudder. The streamlined blade shape produces a very smooth action in the water and creates a dazzling flash and vibration that can grab the attention of any nearby species. This model comes equipped with a bonus "Diamond Dazzler" which is very similar to a Wedding Band, one of the most simple and effective spinning lures for lake fishing.'

# BMW TROLL

The Gibbs BMW Troll has been a tackle box must have for decades, we can almost guarantee you will find one in your grandparents old tackle box. Don't let its oversized looks fool you, this troll is a proven performer and attracts a wide variety of game fish. You'll want at least one of these trolls in your arsenal for days when nothing else seems to be producing. The intense flash and vibrations this attractor provides is sure to entice even the pickiest fish.

# KOKANEE TROLL

Made up of a plastic rudder and four narrow blades, the Gibbs Kokanee Troll is garnished with the ultimate in Kokanee attracting colours and beads, serving up a meal that Kokanee will find hard to resist. The combination of colours, flash and vibration created by the blades swimming through the water will make it impossible for Kokanee to pass by!

14008

# LINE WEIGHT

Stainless Steel wire with a 16oz Vinyl Coated lead weight. Great for Crab and Prawn traps.

72116

# SPLIT SHOT

The Split Shots can be easily clamped onto a line giving that line the weight needed for casting or sinking.

3/8 - 19200  
5/16 - 19300

# BOTTOM RUNNER

The Delta Bottom Runner weight is available in 4 different sizes. Coated with a tough powdercoat finish and features a quick release clip. Available 3 packs.

2 OZ  
72002 (3PK)

2.5 OZ  
72025 (3PK)

3 OZ  
72003 (3PK)

# PENCIL LEAD

Pencil Lead is Cylinder of Lead available in 3 versions. The Stick versions are pre sized and ready to slide on and the coil can be cut to any size to achieve your desired weight.

COILED - 1/4"  
19002

STICK - 1/4"  
19001

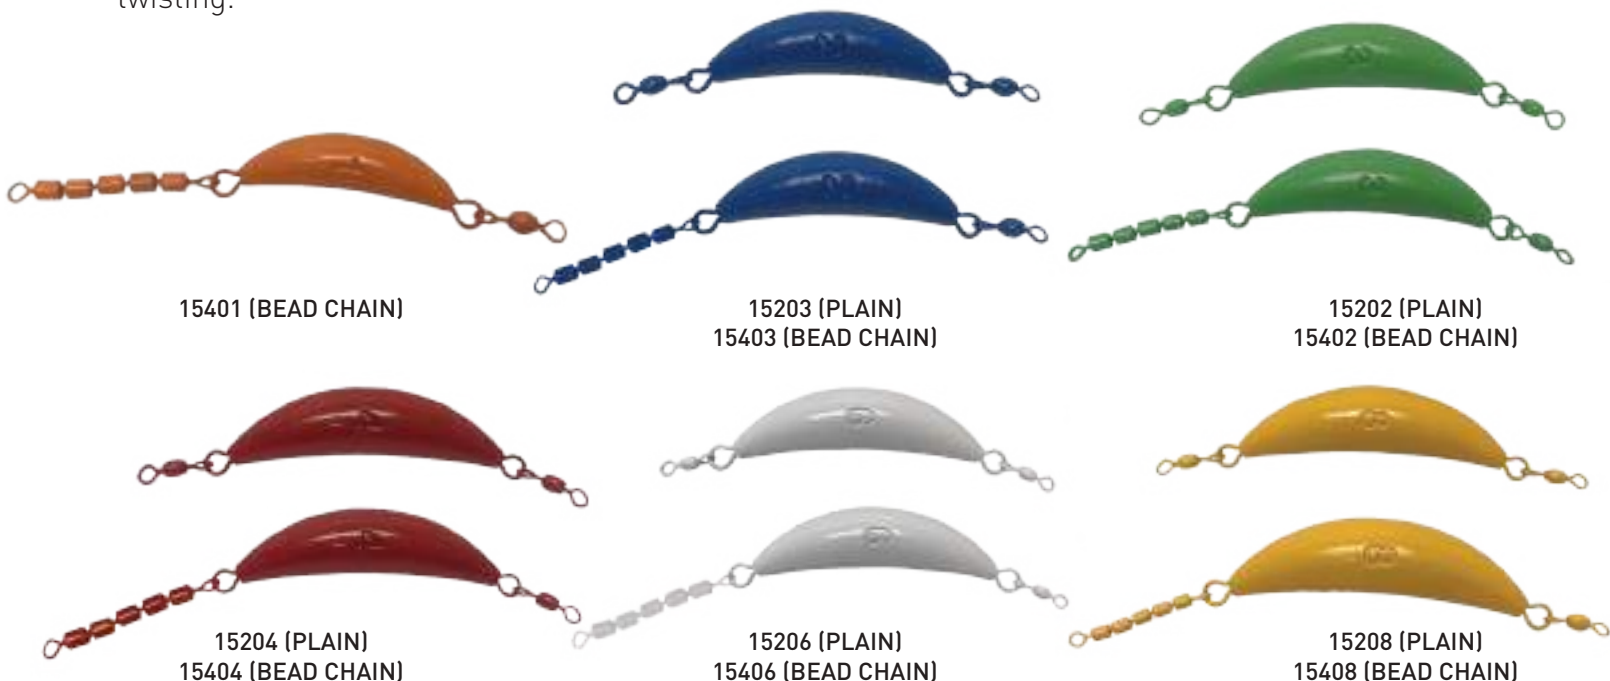

EYED  
1/4" - 19000  
3/8" - 19004  
5/16" - 19003

# MOOCHING WEIGHTS

Lead Mooching Weights are banana shaped lead that are commonly used when employing the “mooching” technique for targeting salt and freshwater salmon. Swivels are attached to each end of the two eyelet rings to avoid mainline and leader twisting. Also available with bead chain swivels for added anti twisting.

# SLIP WEIGHT SINKER

Often known as the “Poor Man’s Downrigger”, Slip Weight Sinkers make an excellent substitution for this pricy piece of hardware. These weights are designed to slip and clip onto your mainline and then release and slide down to your flasher or lure for ease of fight. The Slip weight sinker can be clipped in at any desired spot and won’t get in your way when you have a fish on the line.

8-12LB LINE  
1750-RBS812/10

# ROUND FOAM FLOAT

These 2" weighted round floats allow you to cast extremely far distances without losing your ability to see strikes. Packaged in a convenient 2 Pack!

1750-RFF2FR/2

# FISH BELL

Don't miss a bite with the Gibbs Fish Bell! Equipped with an easy to use clip conveniently sized to attach perfectly to any rod tip.

1750-BSQC  
SQUARE BELL

# KOKANEE RUBBER SNUBBER

A heavy duty snubber with two ball bearing swivels and a clip at one end.

1500-K

# FISH CHAIN STRINGER

This 48" chain stringer features 9 swivel snaps, traditionally used to string fish so they can be immersed and kept alive in water until the angler is ready to release the fish or take it home. Use of the fish chain stringer in this manner will depend on local regulations. In addition, the fish chain stringer can be used to keep harvested fish submerged in lake, pond or river water to aid in keeping the catch cool while still fishing either from boat or shore.

1750-CS48

## CRAB CALIPER

Easily ensure that your catch is legal with the Crab Caliper. It features all of the legal measurements for British Columbia as well as West Coast USA waters.

55100  
YELLOW

## HALIBUT ROD BELT

The Delta Rod Belt features a comfortable padded backing, providing less strain when fighting a fish. This belt comes equipped with a leverage bar and adjustable strap with buckle.
