ORVIS®

# FALL DEALER GUIDE 2021

**WE'VE BEEN HERE FOR 164 YEARS FOR TWO REASONS...** *A FAMILY'S LOVE OF A WAY OF LIFE AND THEIR COMMITMENT TO SHARING IT WITH OTHERS.*

In those years we've seen our share of wars, recessions, and depressions—and we're still here. Together with you, we will work through these times of uncharted change. At the core of the Orvis brand, fly fishing is the ultimate way to reconnect with the natural world in a new era of social distancing. As a result, we are seeing a rise in demand as people search for ways to return to the outdoors safely. Our product line is the strongest it's ever been, and we are continuing to invest in that strength. We are working to find new ways to bring people into the sport, including new virtual fly-fishing educational platforms, and our commitment to the resource and conservation is stronger than ever. Now more than ever, our mutual success is inextricably linked. The value of your expertise and reputation, coupled with the enduring strength of the Orvis brand, is the foundation of this effort. The future of fly fishing and the lifestyle that surrounds it is bright with the promise of better days ahead, and we look forward to partnering with you to build and sustain your business to get there.

# ORVIS UPLAND

**Technically Superior Fabrication. Environ-Driven Designs.**

In the pursuit of upland birds, hunters face multiple environments from dense, thorny cover to open plains, and extreme heat to frigid temps. Orvis upland hunting gear incorporates working detail-driven designs with technically superior and field-tested fabrics to provide a professional-grade field experience. Designed and built by hunters/developers whose expertise in design and fabrication and passion for the field combine to create the most comprehensive and technically advanced line of upland gear in our history.

DOG

# ORVIS DOG

**Only the Best for Four-Legged Friends**

Dogs share our beds and couches, the fires that warm us, and the journeys we take. We see the wonder of the natural world through their eyes and they make us better people. We believe dogs are family. Trust us to provide the very best products for dogs, whether pedigreed hunters, beloved rescues, or simply loving companions.

# ORVIS PRO APPAREL

Designed for Anglers, Built for Athletes

Using technological advances in fabrication and considering every aspect of an angler's movement, exertion, and protection, PRO Apparel is the combination of exclusive fabrication and design elements. Every aspect has been carefully considered using body mapping to create protection zones with varying degrees of insulation and breathability. Angling-specific movement has been carefully considered to provide stretch and enhanced motion in critical areas. Ultimately Orvis PRO Apparel is the most advanced fishing-specific layering system ever designed for those who face the toughest fishing conditions in pursuit of its greatest rewards.

# ORVIS WOMEN

## Designed For Women Who Come Alive Outside

Our women's technical gear and apparel is made to meet Orvis's industry-setting standards and performance and is sized perfectly for her so she can navigate streams, trails, fields, and more with confidence—and of course—style.

From women-specific gear development, to education & adventure experiences, to nonprofit partnerships and women-centric storytelling, 50/50 On the Water is here to inspire and celebrate women in the sport we all love.

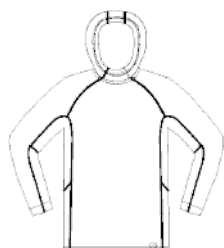

**VISIT US AT [ORVIS.COM/5050](https://www.orvis.com/5050)**

## ORVIS®

### COMPLETE ERGONOMIC AND SUSTAINABLE REDESIGN CREATES MUST-HAVE PACKS FOR ANGLERS

The new Orvis Fishing Pack series is the result of more than two years of research into customer and Orvis associate feedback on fishing packs in use; the good, the bad, and the sometimes ugly of on-stream functionality. From this research emerged a picture of usage, the features touched most often, the convenient, and the inconvenient, which laid the framework for new designs and innovative new features that streamline and improve the fishing experience.

- Innovative new features that solve age-old problems.
- New patent-pending Tippet Whippet on all packs offers recessed, stable, and easily accessible tippet spools. No more dangling spools.
- New easily accessible net storage options on larger packs.
- Improved placement and function of existing features, creating confidence in on-the-water workflow.
- An ergonomic evolution in fishing pack design.
- Built with 600D CORDURA® polyester with a 40% recycled content.
- Lined with 100% recycled 200D nylon for extreme durability and a sustainable footprint.

**CORDURA®**

# ORVIS PRO WADING

**Built on Industry Firsts and Thousands  
of Hours in the Field**

We asked the hard questions and then put the answers to the test. Why not use PU casting athletic shoe technology to build wading boots, and what better and more logical place to go for the best in wet rubber traction than Michelin®. When re-engineering a zip wader, first search the world over for the most advanced waterproof zipper technology. They said we couldn't make a wader from 100% CORDURA®, but we did and so much more. We set new standards for durability, traction, comfort, and feature-rich performance, and we put our findings through thousands of hours in the Canadian Rockies and Alaska to prove it. PRO Wading—designed for anglers, built for athletes.

## WADING / ACCESSORIES

sandstone  
265S21

**265S** - AUGUST DELIVERY - \$98

### **NEW** ENCOUNTER WADING BOOTS FELT

**Men's whole sizes 5-15**

Lightweight ripstop polyester upper. EVA midsole. 10mm felt outsole.

100% polyester upper. Rinse with fresh water. Imported.

gray/multi  
2HN509

**2HN5** - IMMEDIATE DELIVERY - \$79

### CHRISTMAS ISLAND BOOTS

**In men's whole sizes 5-14. 8" high. Weighs 32 oz. in size 10**

Made of Airprene and vulcanized rubber.

- Airprene upper allows water to flow freely through the boot, but keeps sand and grit out
- Easy on-and-off with a YKK<sup>®</sup> side zipper
- Secured by a hook-and-loop tab to prevent line snags
- Sole and sidewall are a heavy-duty ridged rubber to protect against abrasion
- Excellent stability, but more flexible for "feel" on uneven surfaces
- Comes with a reusable mesh carry bag
- In gray/multi

Airprene and rubber. Rinse with fresh water after use. Imported.

black/gray  
1P2X10

**1P2X** - IMMEDIATE DELIVERY - \$29

### NEOPRENE GUARD SOCKS

**Size S (7-9), M (8-10), L (9-11), XL (10-12), XXL (11-13)**

2.5mm, anatomical wading socks with integrated gravel guard

100% neoprene. Washable. Imported.

midweight  
183M09

heavyweight  
183M31

### 183M - IMMEDIATE DELIVERY

#### WADER SOCKS | Sizes M(8-9½), L(10-11½), XL(12-13½)

- Rib-knit construction with padded sole for comfort
- Plush, looped terry interior
- Special 1x1 ribbing eliminates bunching and layering
- Strategically placed nylon reinforcement at the heel and toe

**183M09** midweight \$27.95

**183M31** heavyweight \$29.95

Midweight: 62% merino wool, 33% nylon, 5% LYCRA®. Heavyweight: 77% merino wool, 19% nylon, 4% LYCRA. Washable. MADE IN USA

# Three “What If?” Helios 3s We’d Normally Never Build —Until Now

There are rods the market requires,  
and then there are rods we always wanted to build.

We’ve spent decades designing our rod series from the ground up. Every rod we build is the result of market demand, but in the shop, there are always the “what ifs.” What if we could add reach without weight? What if we reduced length and increased leverage and quickness? What if we designed new rods the market has never seen? These three new Helios™ 3 rods are the result. Introducing two new rods in the Helios 3D series, and a new Helios 3F—each the result of a long history of innovation and asking the question, What if?

## Helios 3F 11' 3 wt.

European nymphing specific design to increase sensitivity and extended reach to cover more water

- Matte midnight blank
- Reel seat is type III anodized aluminum midnight black with matte midnight carbon insert
- Cement accent wrap
- Black/black main wraps
- REC recoil snake and stripping guides
- Matte black aluminum rod tube

## Helios 3D 9' 5" 5wt.

Extended reach for improved mends and line control without increased tip weight

## Helios 3D 8' 5" 8wt.

Reduced length for quicker shots and greater precision with improved boat side leverage

- Matte midnight blank
- Reel seat is type III anodized aluminum midnight black with matte midnight carbon insert
- Cement accent wrap
- Black/black main wraps
- REC recoil snake and stripping guides
- Matte black aluminum rod tube

# EUROPEAN NYMPHING

*"European nymphing technique maximizes an angler's ability to cover more water and present nymphs in the most effective way possible. Using a longer, lighter-weight rod and a tactical nymph line offers enhanced reach, sensitivity, and reduced line sag. This technique gets the flies to the strike zone faster, keeps them in the feeding lane longer, and offers anglers much improved contact with their flies for more effective and efficient drifts."*

—Jesse Haller

Orvis product developer and angler, Jesse Haller, Euro nymphing on the Farmington River, CT.  
Photo: Adam Agnew Media

# TROUT SPEY

## FIVE TWO-HANDED TROUT RODS FOR IMMEDIATE DELIVERY

We've heard the ever-increasing demand for lightweight two-handed rods for trout and have worked to develop a group of rods to meet that demand. These rods will figure prominently in the Fall Fish catalog as well as significant digital marketing exposure. The popularity of two-handed angling has opened new ways to approach trout fishing. This means increased opportunities for new business as trout anglers discover this new approach. Below you will find five lightweight two-handers at two price points and three line weights. These longer three-, four-, and five-weight rods offer significant tippet protection, an increased fish-fighting feel, and yet can leverage large fish without an exhausting battle. You asked and we listened. Five exceptional lightweight two-handers in both Mission and Clearwater.

Director of Design and Development for Outdoor  
Shawn Combs, Spey casting for trout on the Battenkill

IMMEDIATE DELIVERY - \$798

Premium bamboo fly rods have been hand built in the Orvis Rod Shop in Manchester, Vermont, for more than 160 years. Orvis bamboo fly rods represent a last bastion of workbench craftsmanship created by a long, proud line of American craftsmen. They are made to be fished. When modern design philosophy meets a classic material, something incredible is bound to happen.

## DEALER GUIDE ICONS KEY

These items are offered in both men's and women's sizing and colorways with identical technology. The only differences between the two are design and fit.

These items are offered in one size option, however the sizing options accommodate both men's and women's sizes.

These items are offered in more sizing than most items in the Orvis line. In men's this often means this item is offered in small and/or XXXL sizing. In women's this means that our bottoms are offered up to size 20.

The Insect Shield® process binds a proprietary permethrin formula tightly to fabric fibers resulting in effective, odorless insect protection that lasts the expected lifetime of apparel.

Permethrin has been successfully used in the United States as an Environmental Protection Agency (EPA) registered product since 1977 with an excellent safety record. It is used in lice shampoos for children, flea dips for dogs, and various other products, some of which are regulated by the FDA.

UPF 30 blocks approximately 96%-97.4% of UV rays. UPF 45+ & UPF 50 offer excellent sun protection, blocking 97.5%-98% of UV rays.

These items are capable of accepting embroidery for custom shop or guide service personalization.

Sweat is natural and odorless but mixed with textiles it creates a moist and warm environment which is ideal for odor-causing bacteria to multiply and grow. Polygiene prevents the growth of odor-causing bacteria and fungi at the source and keeps clothes fresh and odor free for extended wear.
